What did you appreciate most about this class?

I appreciated the TA’s willingness to repeat herself and reduce students’ confusion during class.

Is there anything you would like to see the TA do to improve his/her teaching?

I found the TA’s own discussion notes to be more useful and comprehensible than when she explained her notes quickly during the discussion sections and OHs. She often overexplained or overcomplicated certain topics or mathematical steps without directly reaching the main points in a simplified way, which made me struggle to understand the material. She should be more prepared and avoid being disorganized with her explanations.
